

7th of January 2026

**FP-Pigments Oy and Power International DMCC Form a Joint Venture
to Establish New FP-Opacity Pigment™ Facility in Abu Dhabi**

FP-Pigments Oy is excited to announce a strategic joint venture with **Power International DMCC**, subsidiary of Bathwal Corporation, to construct a state-of-the-art manufacturing facility for **Opacity Pigments™** in **Abu Dhabi, UAE**.

The new entity, **FP Power Pigments**, will be located in **Khalifa Economic Zones (KEZAD), Abu Dhabi** and will produce FP-Pigments' renowned range of high-performance pigment grades used in Coatings, Plastics and Paper & Board. The company will focus on serving customers across the **Middle East, Indian subcontinent** and **East Africa**.

Commercial and marketing activities for the joint venture will commence in **early 2026**, with the **full-scale production facility** expected to be completed and fully operational by **early 2027**.

The partnership marks a significant milestone in **FP-Pigments'** global growth strategy. We offer the customers in the region with local supply of **cost efficient** and **sustainable hiding power** by expanding our manufacturing footprint across **three continents** and complementing existing sites in **Leuna, Germany; Valkeakoski, Finland; and Rome, GA, USA**. We are delighted about the enhanced capabilities this development brings, enabling us to better support customers worldwide.

This collaboration unites two industry leaders, combining **FP-Pigments'** advanced pigment technology with **Power International's** regional expertise and industrial capabilities.

For more information, please contact your local **FP-Pigments** representative.

Sincerely yours,
FP-Pigments Oy

Roope Maijala
Managing Director
